

After this...

Dusty, now a pleasure riding mount

a second career as this...

Forever Morgans finds new homes for former road horses. When your Morgan can no longer do the miles on the road, we can help give it a second career in a pleasure home.

Let your horse have a new life being cared for with an owner who also loves & appreciates a good Morgan. Road horses are valued because they are dependable, patient, & traffic-safe. Forever Morgans' horses have had second careers as pleasure riding horses, teaching lessons to kids, riding trails in the Rocky Mountains, working on cattle ranches, winning in the show ring, doing therapy with disabled people, & being beloved companions.

We are mainly interested in horses that would be targets for meat buyers. We cannot pay high prices, but we will do our best to work with you. Your horse will have a good home & be well cared for. Some adopters & former owners exchange letters & photos & become friends.

Forever Morgans is a non-profit breed organization whose purpose is to adopt Morgans to good homes. Let us help your horse have a new career.
